

AT01/02 常閉/常開 鈕扣式保護器

Ts01 NC/TS02 NO Button Type Thermal Protector

AT01/AT02鈕扣式突跳式保護器是小型雙金屬片溫控器，利用碟型雙金屬片在溫度作用下產生瞬間跳動的原理，通過機械的作用，使觸點迅速動做，達到斷開或接通電路的目的。

01/ 02 Button type is snap action and bimetallic thermostat. Bimetal trips off or on quickly to open or close the circuit when temperature reaches the prescribed value.

產品特性

- 體積小，便於安裝；
- 電流效應小，不會因過流而產生較大溫差；
- 溫度控制精確可靠。

應用範圍

- 變壓器，線圈
- 窗簾電機，洗衣機電機

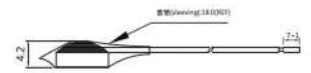

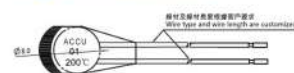

Special Features

- Small size and easy for mounting;
- Low current sensitivity, no large temperature difference due to over current;
- Precise temperature control.

Application

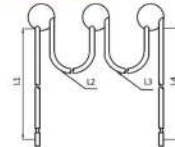

- Transformer, Coil
- Curtain Motor, Washing Machine Motor

產品特性

Series Application

溫度範圍及公差

Temperature Range and Tolerance

動作溫度 Operating Temperature
60~200°C，每5°C一個規格 (A specification for each 5°C)
動作溫度公差 Operating Temperature Tolerance
±5°C

電氣規格

Electrical Specifications

- 250VAC : 3A
- 125VAC : 6A
- 24VDC : 6A
- 接觸電阻 : < 30mΩ
- 絕緣強度 : 2KV
- 絕緣強度 : 2KV

復歸溫度 Reset Temperature
低於動作溫度的1/3 (Less than a third of operating temperature)
復歸溫度公差 Reset Temperature Tolerance
±15°C
